

## Aloha Las Vegas & Hawaii Tour

12 - 21st September 2005

The 2005 Las Vegas Tour was a huge success!

In Las Vegas, the group stayed at the newly built, 6 star Wynn Casino Resort on the Las Vegas Strip. It was amazing; rooms with a view of the whole Las Vegas strip, plasma screen in the bathroom along with a spa bath. This facility took 5 years to build and cost 2.7 billion dollars offering 2700 rooms. The hotel itself consists of a full size casino, world class dining in 19 restaurants, shopping facilities including a Ferrari and Maserati dealership within the hotel, world class shows and a world class golf course! It was definitely action packed full of entertainment.

### Tour events in Las Vegas:

Welcome Cocktail Party

Global Gaming Expo (G2e)

Dinner at an exquisite Moroccan Restaurant (entertainment included a belly dancer!)

The Las Vegas strip had so much to offer and was the reason why people didn't get much sleep whilst in Vegas. The strip was full of casinos all with something different to offer. The Venetian was painted in Italian art, it had a little moat running through it giving gondola rides and the restaurants were designed to look like Little Italy. The roof is painted with sky and clouds so at night it actually feels like broad daylight when your inside. It was definitely a highlight. The Paris Casino has a life size Eiffel Tower going through the middle of it. Caesar's Palace is the biggest shopping precinct you have ever seen, it offers stores selling designer labels to little carts selling souvenirs. Other amazing sights include the Pirate Show, the Stratosphere, Fat Burger, Steve Wynn's Steak House and the Grand Canyon.

The G2e was a huge event consisting of thousands of different gaming stalls and other entertainment products. The IGT stand was the biggest there displaying hundreds of machines including the Terminator and Star Wars machines.
